Menu - Patty's Catering Menu

Patty - 3rd Generation
Dear Prospective Bride,

When we think back to our past gatherings of friends and relatives, most of the time it revolved around food. It may be the Christmas Cookies, Thanksgiving Turkey with stuffing or a recipe unique to your family. These are traditions that pass from one generation to another.

I represent over four decades of honoring family traditions. I learned the food and service business from mother to daughter, and made a solemn vow to do it right every time. The best ingredients, seasonings and generations of recipes make Patty's Catering proof that excellence is still important.

Our staff has several years of experience with planning the perfect menu for your wedding day. We will work well with your wedding coordinator or any other vendors. We can plan, critique, and perfect your special day. We have a selection of unique venues that are available for weddings and or receptions in all different areas.

On your wedding day, you will be a Queen. At that time, all of your choices and plans will come together on the day you have always dreamed of. Everything needs to be perfect and run smoothly. I will be with you from the menu choices to the perfect cake.

The memories we store in our hearts are the important ones. I work very hard to complete your wishes for your Wedding. Not a day for average, but one for excellence will do.

You don't get a second chance, so let's do it right from the beginning.

Leslie
