Our experience in corporate events is very extensive. We can set up in a warehouse, office building, outdoors, or in factories to make your event perfect. Our payment method is set up to handle your company cards right over the phone if you like. I will also be more than happy to meet with you or your staff at your location and give you a bid for your event. I will make things as easy as possible as I know you are busy and want things handled in a very professional manner.

We specialize in custom menus for all occasions small or large. Please call us for details at 636-936-0604.
